

Demonstration of Proposed Features

Date	03-07-2026
Team ID	
Project Name	Emotion Detection & Learning Support Engine.
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	User Authentication	Secure login and registration for users to access the application.	Implemented	Yes	Working successfully
2	Emotion Detection	Detects user emotions from learning-related text using BiLSTM and BERT models.	Implemented	Yes	Accurate emotion classification
3	Personalized Learning Support	Generates AI-powered study recommendations and motivational guidance using Google Gemini API.	Implemented	Yes	Personalized responses generated successfully
4	Emotion Analytics Dashboard	Displays confidence scores and emotion probability charts using interactive visualizations.	Implemented	Yes	Analytics displayed correctly
5	Session History & CSV Logging	Stores user interactions, prediction history, and generated responses for future analysis.	Implemented	Yes	Data saved successfully
6	Neural Network Diagnostics	Displays model confidence, prediction probabilities, and performance insights for analysis.	Implemented	Yes	Diagnostic information displayed successfully

Feature Implementation Summary:

Total Features Proposed	Value
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
