

Customer Journey Map

Date	25-06-2026
Team ID	
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	2 Marks

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions	• Opens the application • Enters study problem or learning difficulty • Selects academic field	• System preprocesses the text • BiLSTM/BERT predicts emotion • Confidence score is generated	• Gemini AI generates personalized guidance • Student views recommendations • Session is saved for future reference
Touchpoint	• Streamlit Home Page • Login Page • Problem Input Form	• Emotion Detection Module • AI Processing Engine • Prediction Dashboard	• Personalized Response Page • Analytics Dashboard • Emotion History
Customer Thought	• "I need help understanding this topic." • "Can AI understand my problem?" • "I hope this helps me learn better."	• "What emotion did the AI detect?" • "Is the prediction accurate?" • "Will I receive useful guidance?"	• "These suggestions are helpful." • "I understand the topic better now." • "I feel more confident in learning."
Customer Feeling	• Curious • Confused • Hopeful	• Interested • Slightly Anxious • Expectant	• Motivated • Confident • Satisfied

Process Ownership	• Streamlit User Interface • User Authentication Module	• Text Preprocessing Module • BiLSTM Model • BERT Model	• Gemini AI • Analytics Module • CSV Logging System
Opportunities	• Improve UI accessibility • Support multiple languages • Faster user registration	• Increase prediction accuracy • Add voice emotion detection • Improve processing speed	• Provide personalized study plans • LMS integration • Real-time instructor dashboard
